IT ACADEMY BELGRADE

2013-2019: Paused studies (5 exams left)

University of Belgrade Faculty of
geography

2009 - 2013:

Fifth Belgrade Gymnasium

WORK EXPERIENCE

This was my first professional experience during which i had the opportunity to work at ALL IP for 6 months. In this role i gained valuable insights into various aspects of software developnemt like:

Material UI library

During my time at ALL IP i had the opportunity to work extensively with the Material UI library, a popular front-end framework.

Working with API-s

I acquired basic understanding of working with API-s. This knowledge enabled me to fetch and display data in various ways in different components. This enhanced my knowledge about data flow in general.

Front-end Developer

Proficient in building interactive user interfaces and single-page applications using React JS, with a solid understanding of its core concepts such as components, state management, and lifecycle methods.

Experienced in leveraging React libraries and tools like Redux for efficient state management and React Router for seamless navigation within applications.

Familiarity with modern JavaScript ES6+ syntax and best practices, enabling clean and maintainable code.

Continuously expanding knowledge through self-learning and staying updated with the latest advancements and trends in React development, with a commitment to delivering high-quality solutions.

SKILLS AND TOOLS

- Good knowledge of HTML5, CSS, JSX
- Decent knowledge of JavaScript
- Version Control (Git)
- Good knowledge of spoken and written English
